

DAYDREAM & SALTIE

Our Day Boats are very simple to operate. However, whether you are a novice or an experienced boater, you will be given a thorough explanation of the boat and its systems. Novices will be given a full handling and safety demonstration and we will accompany all hirers on the first part of their journey.

The boats are not provided with personal life-jackets, but these are available on request on the day of your departure. These are recommended for children under the age of 8 years old.

Travelling too fast causes excessive waves which can destroy nests and will erode the canal banks. Always slow down whilst passing fishermen or moored boats & keep to the right when passing other moving boats. Please cruise courteously and without loud music.

Whats on board?

- A map of the route
- Sink & fresh water supply
- 2-burner gas stove
- Kettle, teapot, mugs, knives, forks, tablespoons, teaspoons, bowls & plates
- Matches, washing-up liquid, drying cloths, soap and towels
